

PONDMASTER®

POND AND AQUARIUM DEEP WATER AIR PUMPS

THE PONDMASTER AP-SERIES air pumps have been designed to satisfy the requirements of a multitude of water-related applications. All AP-Series air pumps operate on standard 110V electric and come with a 6' power cord. The non-oil lubricated motor is designed to operate efficiently and save energy. For outdoor applications, it is recommended that the unit be enclosed to protect it from the elements. These beautifully designed, environmentally friendly pumps can be used for:

- Oxygenating ponds and aquariums for a cleaner aquatic environment
- Promoting healthier fish and aquatic plant life
- Increasing the breakdown of fish waste
- Preventing icing-over in outdoor ponds
- Driving protein skimmers

FEATURES

- Energy-efficient
- Easy to use
- Quiet operation
- High volume with steady air flow
- No lubrication necessary
- Single outlet discharge
- Air diffuser included

	AP-20 (UPC 04520)	AP-40 (UPC 04540)
Air Volume	1700 cu.in/min	2900 cu.in/min
