

## P1200 TRICKLE FILTER

The P1200 is the perfect filter for systems up to 130 gallons. With all the same features of our larger units, the P1200 filter's better performance and higher quality place it at the top of its class. The filter is designed for use with submersible pumps such as the SICCE Syncra Silent Aquarium Pump.

The unique pre-filter over the drip plate is suspended above the drain holes to prevent clogging. The drip plate has a safety overflow port and is deep enough for chemical media, in addition to the proprietary pre-filter pads supplied. The white Sintra® lid over the drip plate helps silence the unit. Clear acrylic lids are optional.

The AquaLife bio media with its higher void space and sweeping surfaces far outperforms spiked balls. The unit's secondary sponge filter can be placed beneath the media for conserving sump space, or in the sump area using the partition wall or in the sump with carbon above it for draining a protein skimmer, like the Model 22V. For heavily loaded systems or for just increasing the filtration capacity of the filter, a second sponge can be added giving the unit an unmatched dual sponge post filter configuration.

With easy hook up and installation, this Aquarium Life Support Systems filter is unrivaled quality and superior performance at an economical price from a company you can count on. Like all of our filters, the P1200 is constructed from the 1/4" cast acrylic with the superior design, workmanship and features our customers have come to expect, and are backed up with a Lifetime Warranty. Despite the claims, no other filters perform better or longer. Make no compromises. Buy the best.

Filters Include media unless otherwise indicated. RR denotes reef ready hookup - no tank return, includes 3/4" and 1" vinyl tubing. Filters without the RR notation ship with a 1/2" EIM® Return, 9/16" and 1" vinyl tubing.

### P1200 Filter includes:

EIM® Return  
Proprietary pre-filter pads  
Vented Bio Media chamber  
1" flexible tubing - 36"  
9/16" flexible tubing - 60"  
Instructions & plumbing diagrams

### Specifications:

**Dimensions:** 24" x 10.5" x 16" & pipe fittings

**Inlets:** (2) 1"

**Media capacity:** 5 gallons

**Recommended Flow Rates:** 500-1000gph

### Standard Features:

- Pre-filter drip plate with safety overflow
- Secondary sponge filter
- Carbon wall support rails built in
- Sponge partition wall for sponge placement in forward sump or for dual sponge configuration
- Special high surface area biomedica
- Ample sump area for reactors, skimmers & heaters
- Water Level Indicator
- Low sump height for easy cleaning & maintenance
- Fits most cabinets & stands
- Lifetime warranty

**P1200** - #AL120 with media, 1/2" EIM Return, 9/16" and 1" tubing.

**P1200** - #AL3366 w/o media, 1/2" EIM Return, 9/16" and 1" tubing.

**P1200RR** - #AL3074, for reef-ready hook up, no return, 3/4" and 1" tubing.

### **P1200 & P1200RR TRICKLE FILTER Options**

- 1/2" Flap Check Valve, #5050
- 1/2" Advanced LoLine® Return, #AL3024
- 3/4" Advanced LoLine® Return, #AL4858
- Refugium / Mud Filter Chamber
- 22V Protein Skimmer, #AL3488
- 1" Tank Adapter factory installed for external pump use, #AL2203
- Model G Reactor, #AL2229
- Clear Lid For Drip Plate, #AL100

### **P1200 TRICKLE FILTER Package Deals**

#### ● **P1200 Package #1 - #AL2894**

This package contains everything needed to hook up a UP1200 to aquariums up to 130 gallons. This great package uses a 700gph submersible pump so it runs quieter using less electricity. UP1200 Package Deal #1 includes:

- 1 - #AL3074 - P1200 with Media
- 1 - #AL2205 - EIM Siphon Box
- 1 - #SIC106 - Syncra Silent 2.0 Pump, 568gph
- 1 - #5068 - 1/2" Female Adapter, Insert x Fipt
- 1 - 1/2" EIM Return, AL3024

#### ● **P1200 Package# 2 - #AL2895**

This package contains everything needed to hook up a UP1200 to tank up to 130 gallons. This great package uses a 700gph submersible pump so it runs quieter using less electricity and a venturi protein skimmer.

- 1 - P1200 with Media #AL120
- 1 - #AL2205 -EIM Siphon Box
- 1 - #SIC108 - Syncra Silent 3.0 Pump,714gph
- 1 - #5141 - 1" Plug, Mipt
- 1 - #5068 - 1/2" Female Adapter, Insert x Fipt
- 1 - #AL3488 - 22V Protein Skimmer
- 1 - 1/2" EIM Return #AL3024

#### ● **P1200 Package# 3 - #AL2899**

The best trickle filter in its class, a great venturi skimmer and the best external pump on the market make up this package. Use on any reef-ready or drilled tank or with a siphon box (not included). For systems up to 130 gallons. A great package for use with a larger UP100 Siphon Box if needed - the best siphon box on the market. Includes all plumbing for hook up.

- 1 - #AL3074 - P1200RR with Media
- 1 - #AL3488 - 22V Protein Skimmer
- 1 - #SIC108 - Syncra Silent 3.0 Pump,714gph
- 1 - #5069 - 3/4" Female Adapter, Insert x Fipt
- 1 - #5095 - 3/4" Combo 90, Insert x Mipt
- 1- #5146 - 3/4" tubing
