PHYTO-fin

- **Concentrated blend of marine algae**
- **Ideal for corals, clams, crustaceans and fish**
- **Enhances vibrant colors**
- **Encourages vigorous growth**
- **Provides essential nutrients**

A rich source of nutrients, whole cells and cell fragments for phytoplankton feeders in a convenient, stable liquid form. Combining two nutrient-rich algae cultures to provide a wide range of particle sizes to meet the requirements of a variety of filter feeding invertebrates. Suitable as a food for reef tanks featuring soft corals or other types of phytoplankton dependent organisms.

PHYTO-fin

Phytoplankton Complex

AquaLife PHYTO-fin is a concentrated blend of marine phytoplankton. This superior natural diet is ideal for soft and hard corals, anemones, zoanthids, clams, and all other filter feeding marine invertebrates. AquaLife Phyto-fin is rich the necessary proteins, carbohydrates and lipids for vivid color, vigorous growth and reproduction.
