

P1000 TRICKLE FILTER

The P1000 is the perfect filter for systems up to 100 gallons. With all the same features of our larger units, the P1000 filter's better performance and higher quality place it at the top of its class. The filter is designed for use with submersible pumps such as the Danner Mag Drive Series.

The unique pre-filter over the drip plate is suspended above the drain holes to prevent clogging. The drip plate has a safety overflow port and is deep enough for chemical media, in addition to the proprietary pre-filter pads supplied. The white Sintra® lid over the drip plate helps silence the unit. Clear acrylic lids are optional.

The AquaLifeBio media with its higher void space and sweeping surfaces far outperform other media. The unit's secondary sponge filter can be placed beneath the media for conserving sump space, in the sump area using the partition wall, or in the sump with carbon above it for draining a protein skimmer, like the Model 22V. For heavily loaded systems or for just increasing the

filtration capacity of the filter, a second sponge can be added giving the unit an unmatched dual sponge post filter configuration.

With easy hook up and installation, this Aquarium Life Support Systems filter is unrivaled quality and superior performance at an economical price from a company you can count on. Like all of our filters, the P1000 is constructed from the 1/4" cast acrylic with the superior design, workmanship and features our customers have come to expect, and are backed up with a Lifetime Warranty. Despite the claims, no other filters perform better or longer. Make no compromises. Buy the best.

Filters include media unless otherwise indicated. RR denotes reef ready hookup - no tank return, includes 3/4" and 1" vinyl tubing. Filters without the RR notation ship with a 1/2" EIM® return, 9/16" & 1" vinyl tubing.

P1000 Filter includes:

- Advanced EIM® Return
- Proprietary pre-filter pads
- Vented Bio Media chamber
- 1" flexible tubing - 36"
- 9/16" flexible tubing - 60"
- Instructions & plumbing diagrams

Specifications:

Dimensions: 24" x 9.5" x 14" & fittings

Inlets: Single 1"

Media capacity: 3.5+ gal

Sump capacity: 13gal.

Recommended Flow Rates: 500-800gph

Standard Features:

- Pre-filter drip plate with safety overflow
- Secondary sponge filter
- Carbon wall support rails built in
- Sponge partition wall for sponge placement in forward sump or for dual sponge configuration
- Special high surface area biomedial
- Ample sump area for reactors, skimmers and heaters
- Water Level Indicator
- Low sump height for easy cleaning & maintenance
- Fits most cabinets & stands
- Lifetime warranty
- Optional Refugium/ Mud Filter available

P1000 - #AL1000 with media, 1/2" EIM® Return, 9/16" and 1" tubing.

P1000 - #AL4650 no media, 1/2" EIM® Return, 9/16" and 1" tubing.

P1000RR - #AL3457, for reef-ready hook up, no return, 3/4" and 1" tubing.

- 22V Protein Skimmer, #AL3488
- 1" Tank Adapter factory installed for external pump use, #AL2203
- Model G Reactor, #AL2229
- Clear Lid For Drip Plate, #AL100

P1000 TRICKLE FILTER Package Deals

● **P1000 Package #1 - #AL2901**

This great package includes everything you need to hook up a P1000 Trickle Filter to a saltwater or freshwater aquarium without making modifications to the aquarium. Use on systems up to 100 gallons. Includes all plumbing for hook up.

The P1000 Package Deal #1 includes:

- 1 - #AL1000 - P1000 with Media
- 1 - #AL2205 - EIM Siphon Box
- 1 - #5068 - 1/2" Female Adapter, Insert x Fipt
- 1 - #SIC106 - Syncra Silent 2.0 Pump, 568gph
- 1 - #5094 - 1/2" Combo 90, Insert x Mipt
- 1 - #AL3024 - 1/2" EIM Return

● **P1000 Package #2 - #AL2902**

Take the P1000 Trickle Filter to the next level. Nothing compares to these filter systems. This package includes a great venturi skimmer. Use the partition wall (included with the filter) and use a sponge in the sump (forward) location. This will make a perfect place to drain the skimmer. Great for a reef tank. Use on saltwater tanks to 100 gallons. Includes all plumbing for hook up.

The P1000 Filter Package Deal #2 includes:

- 1 - #AL1000 - P1000 with Filter Media
- 1 - #AL2205 - EIM Siphon Box
- 1 - #5068 - 1/2" Female Adapter, Insert x Fipt
- 1 - #SIC106 - Syncra Silent 2.0 Pump, 568gph
- 1 - #5094 - 1/2" Combo 90, Insert x Mipt
- 1 - #AL3488 - 22V Protein Skimmer
- 1 - #AL3024 - 1/2" EIM Return

● **P1000 Package #3 - #AL2903**

Take the P1000 Trickle Filter to the next level. Nothing compares to these filter systems. This package includes a great venturi skimmer. Use the partition wall(included with the filter) and use a sponge in the sump (forward) location. This will make a perfect place to drain the skimmer. Great for a reef tank. Use on saltwater tanks to 100 gallons. Includes all plumbing for hook up.

The P1000 Filter Package Deal #3 includes:

- 1 - #AL3457- P1000RR with Filter Media
- 1 - #5068 - 1/2" Female Adapter, Insert x Fipt
- 1 - #SIC106 - Syncra Silent 2.0 Pump, 568gph
- 1 - #5094 - 1/2" Combo 90, Insert x Mipt
- 1 - #AL3488 - 22V Protein Skimmer
- 1- #5126 - 3/4" plastic clamp for pump outlet
